

FOR IMMEDIATE RELEASE: April 15, 2020

“Invest In Your Investment”

Celebrating the Launch of Lime Tree Staging and Décor with us!

Barrie, Ontario: Barrie residents, John and Amy, have taken the unprecedented step of launching Lime Tree Staging and Décor. We will be providing a fresh, unique and compelling home staging service for today’s real estate market. A home has precious seconds to captivate a prospective buyer, it needs to be staged to move quickly at the highest price. Lime Tree is offering our instinctive vision and experienced business skills to transform houses into homes and make your listing stand out above the rest.

If you have a house on the market and the property is sitting longer than anticipated, receiving offers less than you expect, your property may benefit from Home Staging. Research shows that over 90% of buyers use the internet for their home search. If your home is staged professionally, you will benefit from attracting a larger pool of prospective buyers and help you sell your home quicker and for the highest price.

“Invest in your Investment” says John Rubino, Co-Founder and Project Manager. In order to get the highest price for your property, we will improve the way your home is marketed. We will find the hidden potential and practical use of each space within the home.

Before launching their company, John and Amy took intensive training in all aspects of home staging including; Home Staging, Feng Shui, Professional Organizing, and extensive Business Training in addition to the knowledge they accumulate in other successful business ventures. As we continue to grow our company, our vision includes “To continue to educate ourselves in the latest trends, market ourselves to a variety of clients and their needs, build a lasting impression of work”

As stated in our Mission “With an honest, friendly and energetic approach, we believe in enhancing the homes and lives of our clients in an ethical, and cost effective manor while maintaining the highest level of service, we strive to assist our clients, to meet and exceed their needs and goals”

Benefits of Lime Tree Staging and Décor will include.

- Increased online presence by attracting potential buyers
- Reduced the time your house is on the market
- Higher return on investment

Staging services will be available starting April 15th, 2020 at varied price points. We have services available for Vacant Homes, Owner Occupied Home Staging and Décor & Re-Design. For more information on home staging services visit
